

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Product name	7-Month and 3-Week Call Warrant linked to the price of palladium in USD
Product identifiers	ISIN: DE000GQ7CTQ0 WKN: GQ7CTQ
Product manufacturer	Goldman, Sachs & Co. Wertpapier GmbH (the " Issuer "), part of The Goldman Sachs Group, Inc. (see http://www.gspriips.eu or call +498006746367 for more information)
Competent Authority	German Financial Supervisory Authority, BaFin is responsible for supervising Goldman, Sachs & Co. Wertpapier GmbH in relation to this Key Information Document.
Date of this document	July 15, 2025 11:36:43 Frankfurt am Main local time

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type The product is in the form of a warrant issued under German law. It is not an interest bearing security. The payment obligations of the product manufacturer are guaranteed by The Goldman Sachs Group, Inc. (the "**Guarantor**").

Term The product has a fixed term and will be due on March 9, 2026.

Objectives The product provides the potential for capital growth and does not pay interest. What you will receive at the end of the term of the product is not certain and will depend on the performance of the price of palladium in USD (in particular, One Troy Ounce of 0.9995 Fine Palladium, LBMA Palladium Price PM fixing) (the **underlying asset**). You will take the risk that some or all of the value of your investment may be lost upon termination of the product. The product has a fixed term, ending on March 9, 2026. The price of each warrant is scaled by a factor of 0.01, representing the exposure to the underlying asset. The issue price is EUR 0.40. The product will be listed on both the Munich Stock Exchange and the Boerse Stuttgart (Open Market (EUWAX)). The issue date is January 6, 2025.

Repayment at maturity:

For each warrant that you hold there are two scenarios:

1. If the fixing price of the underlying asset on March 4, 2026 is above USD 1,440, you will on March 9, 2026 receive a cash amount equal to the fixing price of the underlying asset on March 4, 2026 minus USD 1,440. The result will be multiplied by 0.01 and will be converted into EUR using the WM Company LDN 4pm Mid exchange rate on March 4, 2026; or
2. Otherwise, you will receive no payment and you will lose your entire investment.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the product issuer may terminate the product early. These events are specified in the product terms and principally relate to the underlying asset, the product and the product manufacturer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

Intended retail investor The product is intended to be offered to retail investors who:

1. have advanced knowledge and a comprehensive understanding of the product, its market and its specific risks and rewards, with relevant financial industry experience including either frequent trading or large holdings in products of a similar nature, risk and complexity;
2. seek capital growth, hedging and/or leveraged performance, expect the movement in the underlying asset to perform in a way that generates a favourable return and have an investment horizon of the recommended holding period specified below;
3. accept the risk that the issuer or guarantor could fail to pay or perform its obligations under the product but otherwise are able to bear a total loss of their investment; and
4. are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product until March 9, 2026.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 7 out of 7, which is the highest risk class. This takes into account two elements: (1) the market risk - that the potential losses for future performance are rated at a very high level; and (2) the credit risk - that poor market conditions are deemed very unlikely to impact our capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Inflation erodes the purchasing value of cash over time and this may result in the decline in real terms of any capital reimbursed.

Performance scenarios What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:		7 months and 3 weeks
Example investment:		EUR 10,000
Scenarios		If you exit after 7 months and 3 weeks (Recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	What you might get back after costs Percentage return (not annualised)	EUR 0 -100.0%
Unfavourable	What you might get back after costs Percentage return (not annualised)	EUR 0 -100.0%
Moderate	What you might get back after costs Percentage return (not annualised)	EUR 0 -100.0%
Favourable	What you might get back after costs Percentage return (not annualised)	EUR 49,207 392.1%

The favourable, moderate, unfavourable and stress scenarios represent possible outcomes that have been calculated based on simulations using the past performance of the underlying asset over a period of up to 5 years. The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if Goldman, Sachs & Co. Wertpapier GmbH is unable to pay out?

The product is not covered by an investor protection or guarantee scheme. This means that if we become insolvent, and the guarantor also becomes insolvent or otherwise fails to make full payment under the guarantee, you may suffer a total loss of your investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- You would get back the amount that you invested (0% return).
- EUR 10,000 is invested

If you exit after 7 months and 3 weeks	
Total costs	EUR 3,021
Cost impact*	43.3%

*This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other PRIIPs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 7 months and 3 weeks
Entry costs	30.2% of the amount you pay when entering this investment. These costs are already included in the price you pay.	EUR 3,021
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	EUR 0

How long should I hold it and can I take money out early?

Recommended holding period: 7 months and 3 weeks

The recommended holding period for the product is 7 months and 3 weeks as the product is designed to be held until maturity; however the product may terminate early due to an extraordinary event. You have no contractual right to terminate the product prior to maturity.

The manufacturer is under no obligation to make a secondary market in the product, but may repurchase the product prior to maturity on a case-by-case basis. In addition the product is expected to be listed on Munich Stock Exchange and Boerse Stuttgart (Open Market (EUWAX)), which may provide you the possibility to sell the product prior to maturity via these exchanges. In such circumstances, the price quoted will reflect a bid-ask spread and any costs associated with unwinding the hedging arrangements of the manufacturer in connection with the product. In addition, the person who sold you the product may charge you brokerage fees when you sell the product.

How can I complain?

Any complaint regarding the person advising on or selling the product (such as your intermediary) can be submitted directly to that person. Complaints about the product and/or the conduct of the product manufacturer may be lodged in accordance with the steps set out at <http://www.gspriips.eu>. Complaints may also be addressed in writing to Goldman Sachs International, PRIIP KID - Compliance Securities, Plumtree Court, 25 Shoe Lane, London, EC4A 4AU, United Kingdom or may be sent by email to gs-eq-priip-kid-compliance@gs.com.

Other relevant information

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are available free of charge from the product manufacturer upon request. Where the product is issued pursuant to the EU Prospectus Regulation (Regulation (EU) 2017/1129, as amended) or the UK Prospectus Regulation (Regulation (EU) 2017/1129 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 and regulations made thereunder, as amended), as applicable, such documentation will also be available as described on <http://www.gspriips.eu>.
